Executive Summary

This report presents a comprehensive review of Bright coffee shop sales performance during the reporting period. It highlights key achievements, business trends, and areas for improvement to support future growth and decision-making.

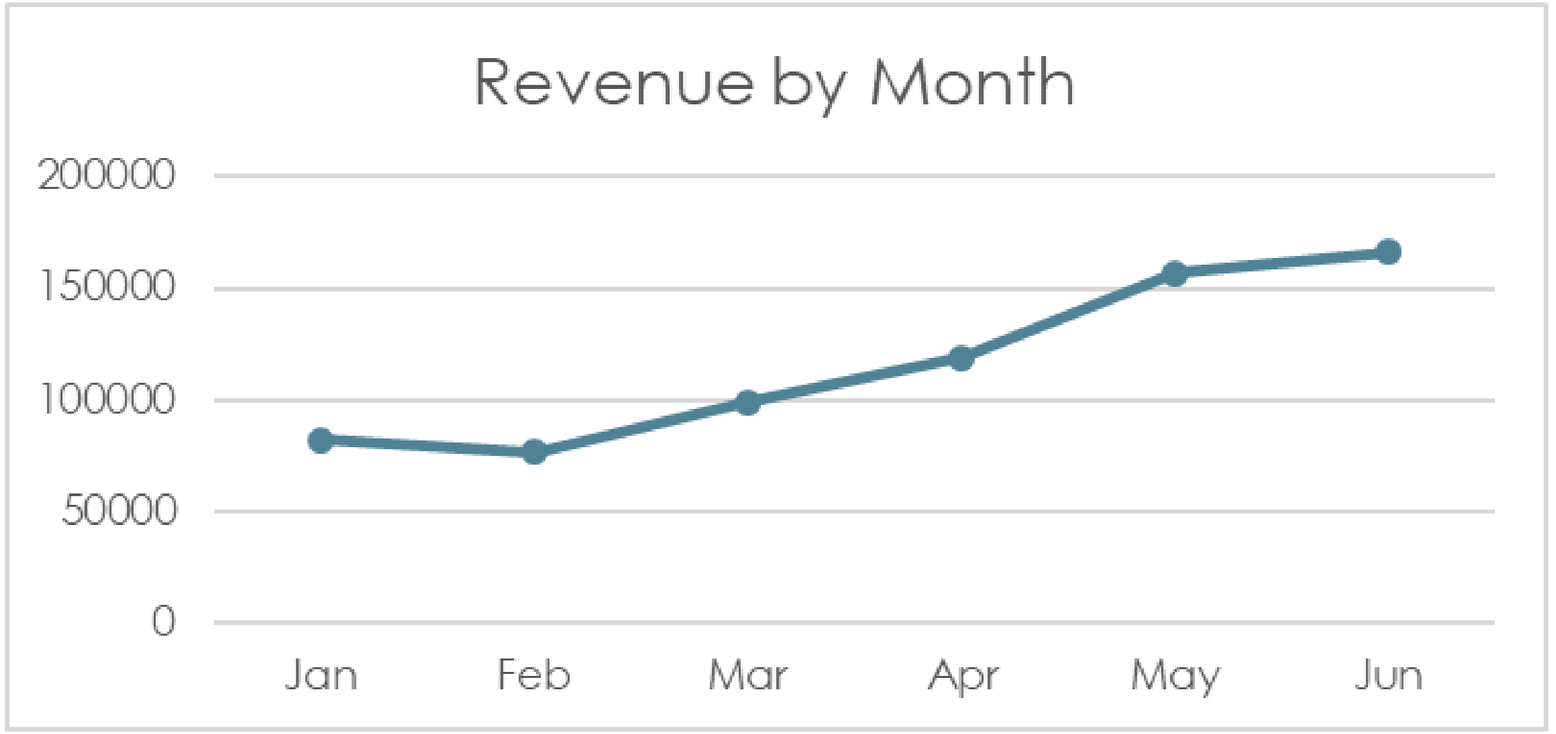

Sales Performance Overview

698,81K	214K	149K	3
Total Revenue	Units Sold	Number of Sales	Number of Stores

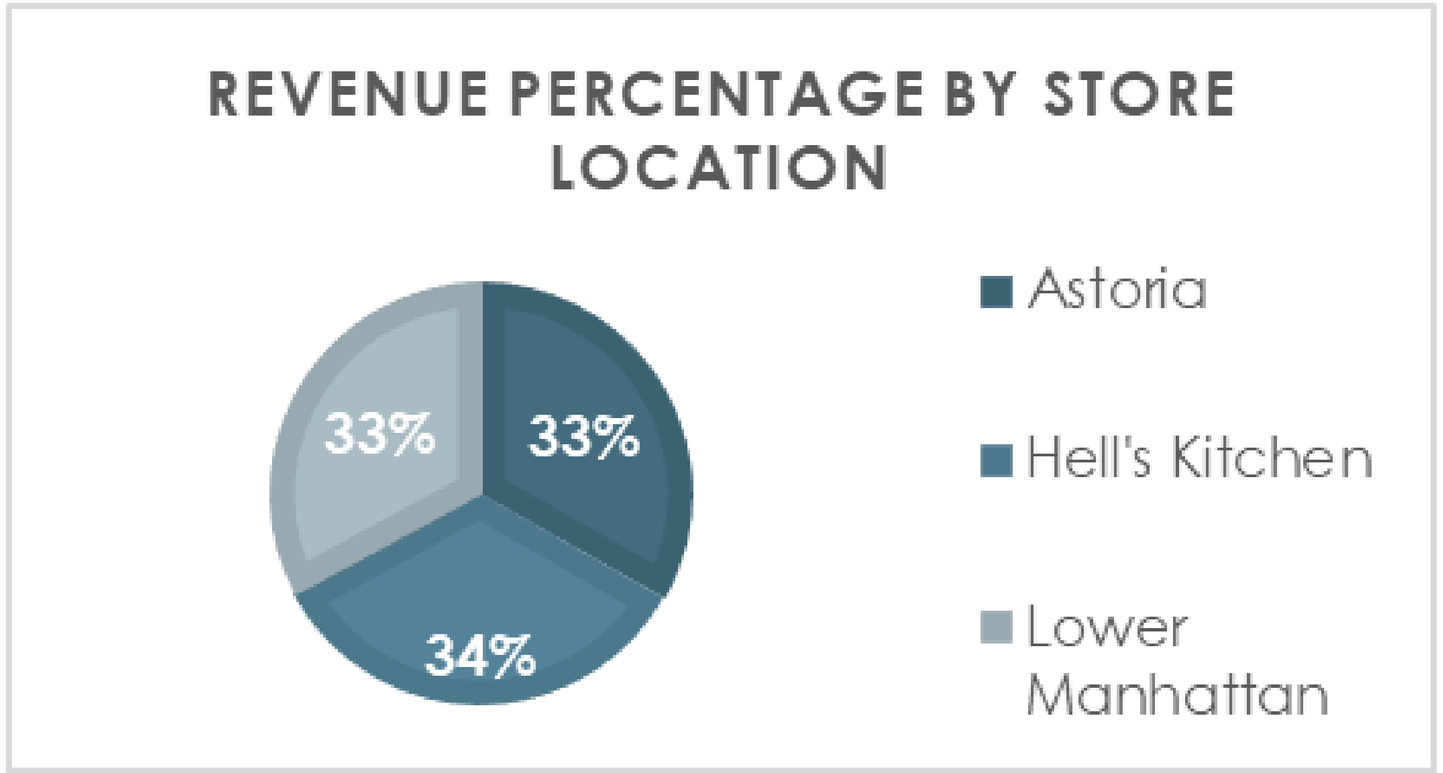

Revenue Analysis

- Revenue showed a slight decline between Jan and Feb.
- After the decline, we have seen rapid growth in revenue.
- Revenue reached its peak in Jun.

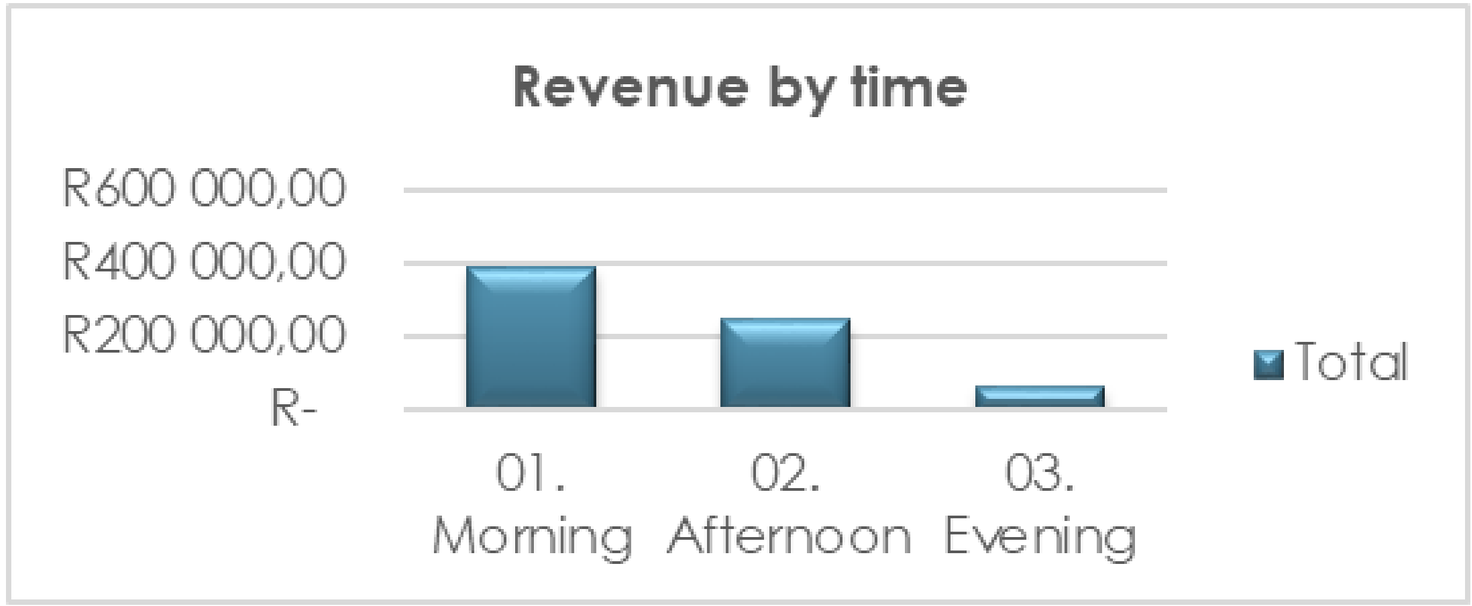

Revenue Analysis

- Hell’s Kitchen contributed the most revenue.
- Astoria and Lower Manhattan contributed equal revenue.

Revenue Analysis

- Majority of the revenue was generated in the morning.
- Afternoon and evening contributed the least revenue.

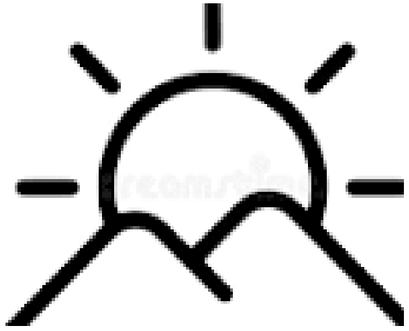

Key Insights

01.

Revenue increased over the period of six months.

02.

Morning was the best time to sell our products.

03.

Green beans is the worst performing product.

04.

Coffee is the best performing product.

Recomendations

01.

Strengthen customer retention initiatives.

02.

Have specials in weekend to promote sales.

03.

Have campaigns to promote struggling products.

04.

Improve performance monitoring across sales channels.
